NOTES & DEFINITIONS

- GROWTH FACTOR** 2010 service population / 1999 service population
- GROWTH AREA** Additional space needed to provide current level of services for population anticipated for 2010
Calculated by multiplying the growth factor times current area, then subtracting current area
- FUNCTIONAL NEEDS AREA** Additional area required to meet today’s program needs
Needs identified by librarians; space calculated by applying standard unit allocations
Note that requests for additional shelving area for existing collection types have been included with “growth” needs; only shelving for new collection categories is listed in this section.

¹ No functional needs area data were available for Murray City Library. Benchmark figures are estimated based on size of projected 2010 service population and holdings.

² The Washington County Library System has fixed facilities at St. George, Enterprise, Hurricane, and Springdale.

TOTAL AREA NEEDED v. LIBRARY STANDARDS

AREA SUMMARY:
LIBRARIES SERVING 25,000 TO 99,999 PEOPLE
